SANTANA NEWSLETTER

NOVEMBER 1984

The Santana Band spent March through May working on the new album. At this date, it is yet to be named and released, but should be in the record stores soon! The 6-week European tour with Bob Dylan was a fantastic success. Beginning in Verona, Italy and spreading through Germany, France, Scandanavia, England, Ireland, Spain and Switzerland, the music ignited fans and thrilled the musicians. Most nights Carlos completed his set and listened to Dylan's incredible repertoire of songs, finishing the night jamming with Bob's electric band. Carlos is grateful to have worked with such a musical talent as Bob Dylan and looks forward to future meetings.

Santana is now presenting one of the most cohesive and creative bands of its history. The current members, who also toured Europe, are:

Vocals:	Alex Ligertwood, Greg Walker
Keyboards:	Chester Dean Thompson, David Sancious
Bass:	Alphonso Johnson
Percussion:	Armando Peraza, Raul Rekow, Orestes Vilato
Drums:	Chester Cortez Thompson
Guitars:	Carlos Santana

For those of you who have asked what Carlos' religious beliefs are — here is a statement by him: "Jesus Christ is the foundation for our inspiration, motivation, goals and our beliefs. Most of the band members pray together before each performance to invoke his light."

Many of you have written and asked to be put in touch with other fan club members so that you could correspond with one another. At this time we are unable to fulfill this request — but we are looking for ways to do this and will keep you posted.
